Subject: Need your Advice

Hello Thomas,

It has been a long time since we have spoke. As you may remember I was involved in a digital currency called AtenCoin. Issue I found with AtenCoin was that the I.D. Verification process either took over 45 minutes to do, or the 3rd party companies I hired; well there verification process could be easily fooled.

As a result of the above, I started early last year my own ID Verification company called Cross Verify, Ltd. We do biometrics, with blockchain technology on a mobile application. We actually do way more than that and have patent pending's that tie biometrics actually to AML-KYC documentation. It is a London based company. I am the majority shareholder of the company.

I have hired an executive team that comes from fortune 500 companies. We will be announcing a government contract soon. Worth 30M a year.

Please let me know when you have time to speak. I was made an offer to buy out the company and leave me with an equity play. I would like to discuss the details of the offer with you and seek your advice on it. I would be willing to compensate you for your time.

Before offer was made, current plan was IPO on Aim Market on London Stock Exchange. Already have brokers and IPO firm in place.
